Mr. Anthony R. DeCarlo  
President  
TRU-WALL CONCRETE, INC.  
955 Redna Terrace  
Cincinnati, Ohio 45215

Dear Mr. DeCarlo:

As we complete the close out phase of the Toyota PE/QD Lab Project our Superintendent, Jim Schmidt, and I want to take this opportunity to express to you our thanks for the high level of professionalism, cooperation and dedication displayed by your project team on our Lab Project.

Please convey to your project team consisting of: Don Wayner, V.P.; Dean Neiheisel, Project Manager; Jim Mueller, Foreman; and all the craftsmen, our thanks and appreciation for the exceptional performance these men provided on our Toyota Lab Project. The aggressive schedule and high level of Owner changes required an extra-ordinary effort to meet the challenges of a quality installation and completing on schedule. Your project team responded in a very positive and cooperative manner. By working many long hours the schedule challenges were achieved, and your team's professionalism and craftsmanship resulted in a high quality installation.

We look forward to working with your firm on future projects.

Sincerely,

A.W. Wofford  
Project Manger
